The summer has flown by with a lot of projects on the burner. The Buildings and Grounds crew has been very busy trying to keep up with the facilities both mowing and projects.

The Stagebarn track has been striped and the goal posts are being installed. The STEM lab has been installed and is looking fantastic. We are waiting on the fence to be completed by the contractor around the detention pond. We hope to have this completed by school.

Central Meade County School is really taking shape. Flooring was a hold up on moving in. The floors were carpeted on the weekend of the 3rd and 4th. The crew was out on Monday morning to begin transporting furniture and to set up rooms. The facilities has been seed and mulched and is beginning to turn green. The basketball court is up and the jungle gym has been installed. We are to receive the swing sets and pea gravel this week to help finish out the recess area. There are several finishing touches that are being done in the next week.

The High School roof is on schedule to be completed by the 16th of the month. The sidewalk is poured and is awaiting finishing up of some dirt work.

Woodle field has been a challenge to keep maintained due to the road and park closure. We hope to have things done there in the near future.

We have two employees due to begin work this month. This will help us to get back into the school year. Thanks to the crew that has done very well being short staffed and having a challenging summer weather pattern.
