Thought of the day

“Indifference and neglect often do much more damage than outright dislike.”

~J. K. Rowling

Are you above the line???

There are two types of thinking: Above the Line and Below the Line. When we are Above the Line, our attitudes, beliefs, and moods are very different than when we are Below the Line.

When we are Above the Line, our thinking is working in our best interest. Above the Line thinking brings out the best in us.

When we are Below the Line, our thinking is not working in our best interest. We make poor decisions. Below the Line decisions can make a mess and cause problems for us and those around us.

We want to spend most of our time Above the Line.
