“The doors of wisdom are never shut.” ~Benjamin Franklin

*Thought of the day*

**“Stop doubting yourself, work hard and it will happen.”**

## Are you above the line???

Imagine a bicycle. If you bike is in perfect shape—**there’s plenty of air in the tires, the brakes work great-you’d feel good about riding it to your friend’s house. If the bike is not in good shape-it has a flat tire or creaky brakes-you wouldn’t want to use it. Sometimes your bike is working in your best interest; sometimes it’s not.**

Our thinking works in much the same way. There are times when our thinking is working **in our best interest and times when it’s not. It’s important to be aware of our thinking and know when it’s serving us well**-when to take the bike for a ride-**and when it’s not**-when to leave the bike in the garage.

**This month, we’re going to talk about how to do just that.**
