RE: School Board Meeting

June flew by with several days of rainy weather. The landscaping and grounds are exceptionally green and growing fast.

Elm Springs received a new color and coat of paint with a few interior improvements to finish off its new facelift.

Work has begun on the replacement of the water heater at the High School. The gym floor and new entrance are slated to begin within the next two weeks. The bathrooms in the Ag Building are in the progress of being remodeled as well.

Sturgis Elementary Library and hallways have received a new coat of paint and LED bulbs are being installed to help the students and add cost savings to the district.

Exterior signage has been installed at Stagebarn and the landscaping is coming around with the addition of many trees and sod. The furniture and interior goods are slated to be delivered on the week of July 16<sup>th</sup>. We are excited to see the building really taking shape!

Concrete pads have been poured to place the boilers on at Sturgis Williams Middle School and are scheduled to have the installation begin on July 9<sup>th</sup>.

Curriculum and Technology shop have a new entrance in progress. The materials have been ordered and are awaiting the contractor who will begin the installation this week. The new entrance will better serve the moving of pallets in and out of the building.
