Interesting Fact: Though many would argue that candy corn tastes like chicken feed, that's not how it got its original name. Created in 1880 by George Renninger, it was sold to the masses by Goelitz Confectionery Company (now Jelly Belly Co.) at the turn of the century. Because corn is what was used to feed chickens, the creation was called Chicken Feed and the box was marked with a colorful rooster.

"MS TAG classes meet Thursday, November 1"

The Character Trait of the Month for October is RESPONSIBILITY. A responsibility is something you have a duty to do and that you're expected to do. Both kids and adults have responsibilities, but if we don't do our jobs or responsibilities, there are consequences. A responsible student stays on top of school work, comes to class prepared and can always be counted on by peers and adults."
