

12/14/20

Dear Parent or Guardian,

Sturgis Elementary has had two positive Covid 19 cases within our building recently. The COVID-19 virus is spread from person-to-person, mainly through respiratory droplets produced when an infected person coughs or sneezes. Spread is more likely to occur when people are near each other (within 6 feet for at least 15 minutes). Please monitor your children for any of the below symptoms and keep them home if they are not feeling well. Symptoms of COVID-19 include:

- Fever or chills
- Difficulty breathing
- Headache
- Congestion or runny nose
- Cough
- Fatigue
- Loss of taste or smell
- Nausea or vomiting
- Shortness of breath
- Muscle or body aches
- Sore throat
- Diarrhea

Thank you,

Chantal Ligtenberg

Sturgis Elementary Principal
